30 June 1981

MEMORANDUM FOR: Chief, Policy and Plans Group

FROM:

Chief of Operations (PTAS)

SUBJECT: Items for the DDA Log
22-29 June 1981*25 June - 1 July*

1. On 24 June, one member of Briefing and Services Branch, Technical Security Division (BSB/TSD) provided technical assistance and accompanied the Director of Security in his security briefing of 28 newly elected members of the U.S. House of Representatives.

2. Three special HAS briefings were held for 4 NOC officers scheduled for overseas assignments. Also, HAS briefing was conducted for 19 Agency employees departing for overseas assignments.

3. An extended HAS and countermeasures briefing was conducted at for 12 military intelligence officers attending the Senior Military Intelligence Operations Seminar.

4. An extended HAS and countermeasures briefing was conducted for 32 members of the NSA Senior Cryptologic Course (CY 200). The briefing was conducted at NSA's Friendship Annex.

During the reporting period, an~~SECRET~~

6. ~~An officer of The Safety Group (SG) completed the health and safety surveys of OTS facilities, South, Central, and East Buildings, and is preparing the report.~~ *A report is in preparation.* 25X1

7. A member of SG returned from attending the Occupational Safety and Health Course for other Federal agencies at the Occupational Safety and Health Administration Training Institute, Des Plaines, Illinois.

8. A member of the Safety Group, accompanied by representatives from the ~~Headquarters Engineering Branch and Office of Logistics~~, toured a sanitary landfill plant in Baltimore, Maryland. The purpose of the visit was to observe a magnetic collection unit to determine if a similar unit could be retrofitted for the Headquarters and operation.

9. A member of the SG presented a 1-hour briefing to members of the Agency's Safety and Health Committee. The topic concerned Agency implementation of 29 CFR Part 1960.

10. On 25 June, a representative of Information Systems Security Group (ISSG) along with three other Agency staff personnel representing TSD/OS and OC/COMSEC, attended a meeting at NSA with NSA personnel responsible for determining the security risks of optical fibers used in communications networks. Discussions centered on recent contractual efforts by NSA which revealed some security vulnerabilities of certain fiber optic cables. Final report will soon be issued and disseminated.

11. A representative of ISSG and a member of OC/COMSEC met with NSA personnel ~~on 25 June~~ to discuss technological options for encryption devices to be employed on a proposed high speed Wide Band Bus System. Among other issues, the need for higher speed encryption devices was stressed by Agency representatives.

12. ISSG concluded the second running of our week-long Information Systems Security Course. Nineteen students attended, and critiques were generally very favorable with only minor changes recommended.

13. A member of ISSG gave a 1-hour presentation on 29 June to about thirty participants of an OTR-sponsored course entitled "CIA Financial Systems" on the subject of computer security and auditing. Based on comments and questions, it was well received.

15. a new ISSG staffer, reported to the Office of Security 29 June from the U.S. Treasury Department. brings many years of technical systems experience gained at Treasury to ISSG/OS.
